Subject: Geris Wind Power Plant, Neighborhoods of Geris and Yalikavak  
Town of Bodrum, City of Mugla, TURKEY

Dear Pinar Ozturk,

Thank you so much for your kind reply to our e-mail letter of 22 January 2015.  
We are currently in the process of preparing detailed documentary proof supporting our claims at the Administrative Courts in the City of Mugla. A team of academics and experts will be formed by the court soon to review our litigation petition, and the documentary proof will be handed over to the team to aid in their investigation and to direct them in the proper direction.

As per your request, we will forward the same package of documentation to the Gold Standard Foundation. We will try and translate as much of the documents as possible to the English language and will probably rely on your good regional offices to properly communicate the rest to Geneva.

Regarding sharing our letter with the public in your web site; I would prefer to wait until the documentation is prepared, which is soon, and our cover letter of complaint to the Foundation is clearly and fully supported by the documentary proof.

Thank you, again, for your support in duly and diligently processing our rightful claims. I will be in touch as soon as the relevant material is ready.

Best regards,
